Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 5, 2006 has been entered.

Authorization for this examiner's amendment was given in a telephone interview with Allen Wood on August 7, 2006. The application has been amended as follows:

The prior art fails to teach or suggest the combination of structural elements disclosed therein, specifically to an airflow channel formed by the combination of the chamber and one of the openings of each of the side regions of the reflective base, whereby the frame has holes opposing opposite ends of the airflow channel, and all subsequent dependent claims are allowed.
